

Your preferred partner for IBOPs and FOSVs

Design Library

Over 5,000 designs available that cover almost every valve in the business.

Always Stocked

Nearly \$1m USD of stock in Middle East (and always increasing).

Less Risk, More Control

In-house production includes an API thread license, 5 axis CNC and in-house seal manufacturing.

Authorized IBOP Repair

First to have an authorized IBOP repair facility in MENA. Send your valves and we can provide an expert analysis.

Patented Actuator Design

Leader in Actuation technology with standardization options across 4 top drive OEMs for 25+ years.

IBOP Specialized Training

First to offer training directly to end users to improve the knowledge and skills of your rig crew.

Customized Coating

Customized internal coating options for extreme service environments.

Global Network

Stocking and sales partners located internationally.

Ask about our case study doubling the lifecycle of our customer's valves!
